

### Be sure you have the right tool for the job:

- Motor driven clippers for heavy-duty cutting
- Adjustable blade clippers for tapering and general cutting
- Trimmers for trimming and detailing

*Ears, eyebrows, nose... A haircut is not complete until all these areas have been addressed.*

### Choose your weapon...Detachable blades:

- #1 – Clipper-over-comb
  - #3 ¾ – Starting blade, classic taper cut
  - #0000A – Military and fade cuts
  - #T-24 – Texturizing and blending
  - #1 ½ – Short tapering
  - #000 – Shear style cutting, clipper-over-finger
- Trimmer – Use your full-size handpiece as a powerful trimmer

*The NEW Andis US-1.  
The professional clipper perfect  
for all-around styling!*

### Andis Clipper Combs

Available in midnight black and arctic white:

Light combs – dark hair

Dark combs – light hair

See the contrast, see the guide, make the cut

Always hold your clipper comb at an angle

This will prevent lines and steps in your taper

### Clipper Techniques

Clipper-over-comb, overhand – under the crestline, tapering

Clipper-over-comb, underhand – over the crestline, layering

Backhand cutting – interior layering

Shear style cutting – use your clipper like a scissors

### Do not forget your clipper insurance.

*Andis Clipper Oil and Andis Cool Care Plus® 5-in-One clipper spray.*

### Textured cutting tips...

1 blade, 2 cutting lengths – with and against the growth direction.

The OA F/D blade is designed for freehand shaping of textured hair.

Use T-84 for fast take-down prior to bald fading.

### Andis Cool Care Plus® 5-in-One clipper spray

*All the good stuff in one can...*

- Blade coolant
- Disinfectant
- Light lubricant
- Blade cleaner
- Rust preventative

*Do not forget to oil your clipper!*

### The “other” clipper cutting tools...

The haircutting chair – raise, lower, spin. Move the client, not the cutter

The mirror – see the cut, improve the quality

Your white shirt – use in the mirror as a backdrop, see the cut outline

### T-24 Texturizing Blade.

The ideal tool for...Wiping, thinning, blending, layering, chipping

...All with a clipper!

### Detachable blades, helpful hints...

- Only put a blade on your detachable blade clipper when the clipper is running
- You can take a blade off when it is on or off
- Two screws beneath the drive cap allow you to easily change the blade drive for like-new performance
- Use Andis Cool Care Plus® 5-in-One to keep your blades running cool and smooth
- Sanitizes and protects, too!
- Cut down through your blade sizes when tapering
- Start with larger sizes and go smaller/shorter

*Always hang your clippers by their hanger loops.  
Avoid drops and damage.*

### Adjustable blade clippers...

*When using snap-on attachment guards,*

- Set your clipper to the 000 or closed position
- Cut clipper-over-comb with the lever in the #1 position to better control feed and blend
- Invest in a replacement clipper blade once a year to maintain performance and client comfort

### Trimmer tips...

- Clean up – set your line in place and clean upward against hair growth direction
- Do not scratch the neck
- T-blades make it easy to trim corners and ear areas
- Square blades are easier to manipulate in tighter spaces
- Avoid asking a trimmer to cut over comb
- Leave the big jobs to the big tools
- Cordless trimmers offer greater mobility and convenience
- Use small trimming combs when working with trimmers
- Check the blade before you trim
- A misaligned blade can nip a client

*The Andis Improved Master clipper,  
the king of the haircutting jungle!*

### How many clippers do I need? At least three:

- A high powered detachable blade clipper for volume cutting
- An adjustable tapering clipper for precision tapering
- A powerful trimmer for all the edges and details

### The latest and greatest...Andis CeramicEdge® blades

- Runs cooler for longer life and client comfort
- Stay sharper, longer
- Super fast, smooth cutting action

*Do not forget to fill out your registration card and save your proof of purchase. Andis offers a great warranty.*
